Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM
THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 –13, drawn to method of making antibiotic conjugate, classified in class 514, subclass 8.
 - II. Claims 14-30 and 50-64, drawn to an antibiotic conjugate and kit comprising antibiotic conjugate, classified in class 514, subclass 8.
 - III. Claims 31-49, drawn to method of using an antibiotic conjugate, classified in class 514, subclass 8.
 - IV. Claims 65-74, drawn to method of modulating dose responses and enhancing the rate of immune complex formation, classified in class 514, subclass 8.

2. The inventions are distinct, each from the other because:

The product of Group II is related to the methods of Group I as a product and process of making the product. The inventions are distinct if either or both of the following can be shown:

- (1) that the process as claimed can be used to make another and materially different product or
- (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the process as claimed may be used to make many other chemical compounds.

Art Unit: 1654

Inventions of Group I, Group III and Group IV are distinct inventions wherein the two groups of methods are independent, using separate method steps, active agents, and having different effects.

Inventions of Groups II and III are distinct inventions as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be use in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product of invention II can be used for procedures such as molecular weight markers.

Inventions of Groups II and IV are distinct inventions as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be use in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the invention of Group II can be used for other processes such as molecular weight markers.

Inventions of Group III and Group IV are distinct inventions wherein the two groups of methods are independent, using separate method steps, active agents, and having different effects.

3. Because these inventions are distinct for the reasons given above and the search required for one group is not required for another group, thus requiring additional burdensome search time for the examiner to search the groups together, restriction for examination purposes as indicated is proper.

Art Unit: 1654

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to B. Dell Chism whose telephone number is 703-306-5815. The examiner can normally be reached on 7:30 AM - 4:30 PM, Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brenda Brumback can be reached on 703-306-3220. The fax phone numbers for the organization where this application or proceeding is assigned are 703-308-4242 for regular communications and 703-308-4242 for After Final communications.
